Mahindra Logistics Q2FY23 Revenue was in –line with expectations

- **EBIDTA margins** stood at 5.1% v/s 4.5% YoY and 5.5% QoQ.
- Transportation led logistics business grew by 34% to Rs 9865mn whereas Warehouse and services business grew by 13.6% YoY to Rs 2769mn, on account of higher share of Mahindra's volume.
- PAT (owners) increased by 138% YoY to Rs 121.9mn aided by better EBIDTA margins followed by 117% rise in PBT, lower tax rate @ 28.5% v/s 39.8% YoY

Outlook:

- Auto sector demand remains in the upward trajectory especially with newer PV models in demand, chip shortage issue has reduced and OEM's have been able to increase prices. 2W and entry-level PV's remain weak.
- Rural and E-commerce demand remain muted v/s expectations especially on the lower value items as inflation impact was higher
- New quarterly order intake of ~Rs 900mn to Rs 1000mn added in NON-MNM business
- National Logistics policy would reduce the cost of logistics to GDP from 14-15% to 8-10% and expand the size of the industry as well.

Outlook & Valuation

The company has building blocks in place with investments in technology. MLL has an aspiration to reach Rs 10000crs revenue by FY26.

Newer business i.e. express logistics, freight forwarding are at very nascent stage with tremendous growth opportunities with the current National Logistics Policy acting as the catalyst for growth.

We have re-worked our numbers post conference call and at CMP of Rs 523 Mahindra Logistics trades at 70x FY23e EPS of Rs 7.5 and 33x FY24e EPS of Rs 16.

Pick-up in Auto-Industry in general which contributes approximately 58% of MLL Revenue will aid growth going forward. New launches by MLL's largest client i.e. MNM (SUV 700 and the new Scorpio) are also indicating towards a good growth in the coming quarters hence H2FY23 is expected to be strong as well.

Long-term story remains very positive however we do believe newer business will see short-term hiccups till the time they attain scale benefits thus we **continue to maintain HOLD rating on the stock with a price target of Rs 560** i.e. 35x FY24 earnings**.**
