

SAMVAT 2078

DALAL & BROACHA
STOCK BROKING PVT. LTD.

Happy Diwali

Dalal & Broacha Stock Broking Pvt. Ltd.

Samvat 2077 has been one of the best years in terms of returns. Last Samvat till date, the Sensex has gone up by over 37%. Nifty midcap100 and the Nifty smallcap100 indices too joined the party with impressive returns of 75% and 87% respectively. India's economy has seen a V shaped recovery post the stringent lockdown imposed by the Government of India. GST collections have been consistently coming over the 1 lac crore mark. The feather in the cap has been the successful vaccination drive. India has vaccinated more than 100 cr people, an amazing feat when compared with other developed and emerging countries around the world. Presently, 54.3% of India's population is single vaccinated while 23.8% is fully vaccinated. While there is a possibility of third covid wave hitting the country, given the high level of vaccinations we expect fatalities to be lower and don't expect stringent lock down to be imposed again.

Indian corporates have significantly deleveraged themselves in the last 18 months. According to Capitaline Database, 750 companies reduced their gross debt by ₹3 lakh crore to ₹14.7 lakh crore in FY21 from ₹17.71 lakh crore in FY20 and net debt by ₹4 lakh crore to ₹9.5 lakh crore in March 2021 from ₹13.51 lakh crore in March 2020. India's macro environment also is in a sweet spot, reflected in the rating upgrade by Moody's from negative to stable. We believe a combination of strong GDP growth, low interest rates and buoyant consumer sentiment will lead to double digits earnings growth in the coming year.

Muhurat trading has been a long-standing tradition amongst investing community in India and we have been recommending stocks to invest in for Muhurat trading. Last year the recommendations for Muhurat Picks have appreciated by 56% as compared to over 37% return by Sensex. We are enclosing herewith a list of stocks that are our 'MUHURAT PICKS' for Samvat 2078. If one wants to buy a basket of these stocks, the quantities indicated would give an equal weight portfolio of approximately Rs.50000.
