Mr. Priyakant Dalal (Chairman)

Mentor and founder, he brings to the firm over 50 years' experience in the financial services field. Having triumphed over the wildly oscillating financial sector, his knowledge and values lie at the core of Dalal & Broacha. He was appointed a member of the Arbitration Committee of the Stock Exchange, Mumbai, in 1981 and became the Chairman of the same in 1993. He is currently a trustee of the Stock Exchange, Mumbai.

The firm traces its beginnings to 1961, when Priyakant Dalal joined forces with Shapur Broacha to establish Dalal & Broacha. The company has steadily evolved and matured through four decades, consolidating its managerial strengths to handle corporate growth, while expanding its service portfolio to answer changing investor needs.

Today, the firm is an integrated financial services player offering an extensive range of financial solutions and services to a wide spectrum of customers with varied needs ranging from equities to mutual funds to commodities to depository services. The firm is a member of The Stock Exchange, Mumbai, as well as the National Stock Exchange in the Cash as well as the F&O segments. It is also a member of the Multi Commodity Exchange and is a Depository Participant with CDSL.

Other services provided by the company include distribution of Mutual Funds, IPOs, and Portfolio

Management Services, with the firm currently handling over 20,000 retail clients, NRIs, corporates, banks, mutual funds, and FIs.

Since our inception we have consistently adhered to our core philosophy of taking a long-term approach to investments, avoiding any kind of speculative risk-taking, so as to protect our clients' capital and ensure steady growth at every opportunity. Moreover, by ensuring absolute transparency in all dealings we have won the trust of our clients - and it is on this basis that we continue to establish and nurture long-term relationships - "investments" that are sure to pay dividends, in more ways than the obvious.

## INSTITUTIONAL EQUITY DESK

Since it was set up nearly two decades ago, our Institutional Equity Desk has grown exponentially. Today, we are doing business with each and every major financial institution, bank and mutual fund in India, along with a large number of Foreign Institutional Investors (FIIs).

Our Institutional Equities Desk comprises two functions – namely, Sales and Dealing. The Sales team, whose primary responsibility is client servicing and business acquisition, acts as a liaison between the Dealing team, our Research desk and the Client. The Dealing team is responsible for the accurate execution of orders placed by our institutional clients and for providing the latter with real-time market inputs. The Institutional Equities Desk coordinates with the Research Department to provide world-class services to this very demanding group of customers.

Our Research caters to both Institutional and Retail Clients. Our brief is simple: identify good businesses with decent management at a reasonable price.

The process involves identifying good businesses, meeting the management, analyzing the balance sheet and recommending the idea to a client. In the past year we have met about 200 companies across the country. Though we follow a bottoms up approach, we have a team of six analysts, each specialising in different sectors.
