FESTIVAL OF LIGHTS

VIKRAM SAMVAT

2079

OCTOBER 2022

SAMVAT 2079

Equity Research Desk

17 October 2022

Samvat 2078 has been a quiet year in terms of returns. Last Samvat till date, the Sensex has given a negative return of 3%. Mid and the small cap indices too were under pressure with negative returns of 3% and 13% respectively. Globally, equities as an asset class were under pressure as central banks across the world started to raise interest rates and tighten their monetary policies to curb the red-hot inflation. Russia-Ukraine war further clouded the sentiment as rising gas prices worsened the problem of inflation in Europe. While India continues to shine in the current gloomy environment, the global uncertainties have led to foreign investors selling more than USD 30 bn worth of Indian equities in the last 1 year. In absolute terms, the last twelve months have seen the highest selling by FIIs since 2000.

While markets have been subdued, economic conditions of India continue to remain strong and stable. Kudos to the Government and RBI for maintaining inflation at reasonable levels when the major economies of the world are going through a phase of multi decadal high inflation. Latest GST collections at Rs. 1.48 trillion (increase of 26% on a YoY basis) has been impressive. Car sales after remaining subdued last year is rebounding very strongly as supply of semiconductor chips picks up. The PLI scheme of the government is also gaining traction with the announcement of Foxconn-Vedanta JV for manufacturing semiconductor chips.

We believe that we are at the fag end of the interest rate tightening cycle as inflation has started to moderate. As and when the current phase of global uncertainties ends and economic outlook stabilizes, we expect India to be the torchbearer of world markets.

Muhurat trading has been a long-standing tradition amongst the investing community in India and we have been recommending stocks to invest in for Muhurat trading. Last year the stocks recommended for Muhurat Picks too were impacted by the negative sentiment and relentless FII selling, in spite of good long term prospects. As a result, the last year Muhurat picks have given a negative return of 7% on an equal weight basis. **We are enclosing herewith a list of stocks that are our 'MUHURAT PICKS' for Samvat 2079. If one wants to buy a basket of these stocks, the quantities indicated would give an equal weight portfolio of approximately Rs.50000.**

India continues to shine in the current gloomy environment.

Economic conditions of India continue to remain strong and stable.

Latest GST collections at Rs. 1.48 trillion (increase of 26% on a YoY basis) has been impressive.

We believe that we are at the fag end of the interest rate tightening cycle as inflation has started to moderate

Happy Investing!
