

# D&B India Opportunities Multicap Fund AIF Performance Report

**March 2022**

This report pertains to the period ended March 31, 2022

This report has been provided for the sole purpose of comparing the fund's performance with Nifty AIF Benchmarks for reporting to existing investors.

This report has been prepared relying on the data reported to us by the fund without due diligence of the accuracy and validity of the data being submitted to us.

# D&B India Opportunities Multicap Fund - Series I (DBIOMF-SI)

CATEGORY: III, SUB-CATEGORY: LONG ONLY EQUITY

## Trailing Returns (INR)

| Period   | Scheme Trailing Return | Nifty Category III Index |                | Sub-Category: Long Only Equity Index |                | Public Market Indices |                         |
|----------|------------------------|--------------------------|----------------|--------------------------------------|----------------|-----------------------|-------------------------|
|          |                        | Asset Weighted           | Equal Weighted | Asset Weighted                       | Equal Weighted | Nifty 50 TR           | Nifty Composite Debt TR |
| 2 years  | 36.99%                 | 38.40%                   | 42.14%         | 47.51%                               | 51.07%         | 44.05%                | 6.85%                   |
| 1 year   | 21.94%                 | 21.31%                   | 24.48%         | 24.66%                               | 26.38%         | 20.26%                | 5.12%                   |
| 6 months | 0.79%                  | -0.26%                   | -0.97%         | -1.45%                               | -1.19%         | -0.46%                | 1.32%                   |
| 3 months | -3.43%                 | -1.72%                   | -2.28%         | -3.12%                               | -2.73%         | 0.84%                 | 0.73%                   |

Source: NSE Indices. Data as of Mar 31, 2022. Returns are calculated on a post-expenses, pre-carry, and pre-tax basis. Returns for PMIs are based on TRI values; 6-month, 3-month and 1-year returns are absolute returns. Returns for greater than one year are annualised returns. Please refer the annexure for Sub-category definitions, Definitions of metrics used, and the number of schemes excluded from the calculation of benchmark metrics for the period ended Mar 31, 2022. For Nifty Category III Index and Sub-Category: Long Only Equity Index, 148 Schemes and 104 schemes have been considered, respectively.

The table above shows the returns of DBIOMF-SI versus Asset weighted and Equal weighted returns of Nifty AIF Cat III Index, Relevant Long Only Equity Sub-Category Index, and Nifty TR indices over specified horizons. For instance, during the 2-year period (i.e., from March 31,2020 to March 31,2022), DBIOMF-SI achieved a CAGR of 36.99%. The Nifty AIF Category III Asset Weighted Index, the Long only Equity Asset Weighted Index, Nifty 50 TR, and the Nifty Composite Debt Index achieved CAGRs of 38.40%, 47.51% and 44.05% and 6.85% respectively over the same period.

## Financial Year (FY) Returns (INR)

| Financial Year | Scheme Return | Nifty Category III Index |                | Sub-Category: Long Only Equity Index |                | Public Market Indices |                         |
|----------------|---------------|--------------------------|----------------|--------------------------------------|----------------|-----------------------|-------------------------|
|                |               | Asset Weighted           | Equal Weighted | Asset Weighted                       | Equal Weighted | Nifty 50 TR           | Nifty Composite Debt TR |
| FY 2021        | 53.89%        | 57.89%                   | 62.29%         | 74.54%                               | 80.58%         | 72.54%                | 8.62%                   |
| FY 2022        | 21.94%        | 21.31%                   | 24.48%         | 24.66%                               | 26.38%         | 20.26%                | 5.12%                   |

Source: NSE Indices. Data as of Mar 31, 2022. Returns are calculated on a post-expenses, pre-carry, and pre-tax basis. Returns are provided only for those years where the scheme (DBIOMF-SI) was in existence for the whole financial year. Please refer the annexure for Sub-category definitions, Definitions of metrics used, and the number of schemes excluded from the calculation of benchmark metrics for the period ended Mar 31, 2022. For Nifty Category III Index and Sub-Category: Long Only Equity Index, 148 Schemes and 104 schemes have been considered, respectively.

## CAGR Distribution Analysis – Distribution of Historical Scheme CAGRs (INR)

| Period          | Scheme CAGR | Category III Benchmark |        |        |        |                    | Sub-Category: Long Only Equity Benchmark |        |        |        |                    |
|-----------------|-------------|------------------------|--------|--------|--------|--------------------|------------------------------------------|--------|--------|--------|--------------------|
|                 |             | No. of Schemes         | Q1     | Median | Q3     | Scheme Positioning | No. of Schemes                           | Q1     | Median | Q3     | Scheme Positioning |
| 1 – year return | 21.94%      | 104                    | 32.16% | 18.93% | 11.19% | Second Quartile    | 77                                       | 35.32% | 20.94% | 14.33% | Second Quartile    |
| 2 – year return | 36.99%      | 93                     | 59.91% | 39.06% | 29.28% | Third Quartile     | 67                                       | 65.07% | 45.06% | 36.99% | Third Quartile     |

Source: NSE Indices. Data as of Mar 31, 2022. Returns are calculated on a post-expenses, pre-carry, and pre-tax basis. 1st and 3rd Quartiles are the return thresholds for the top 25% and bottom 25% schemes respectively, based on individual scheme trailing returns for respective time frames. Please refer the annexure for Sub-category definitions, Definitions of metrics used, and the number of schemes excluded from the calculation of benchmark metrics for the period ended Mar 31, 2022.

The table above shows DBIOMF-SI, Nifty AIF Cat III Index and Long Only Equity Sub-Category Index's 1- and 2-year CAGR, in INR terms. For instance, there are 93 Category III schemes and 67 Long Only Equity schemes with 2-year CAGRs. DBIOMF-SI has a 2-year CAGR of 36.99%, putting it in the third quartile of all Cat III schemes and Long Only Equity schemes.

Source: NSE Indices. Data as of Mar 31, 2022. Returns are calculated on a post-expenses, pre-carry, and pre-tax basis. Please refer the annexure for Sub-category definitions, Definitions of metrics used, and the number of schemes excluded from the calculation of benchmark metrics for the period ended Mar 31, 2022. For Nifty Category III Index and Sub-Category: Long Only Equity Index, 148 Schemes and 104 schemes have been considered, respectively.

The table above shows the 1-year rolling returns on quarterly ending dates for DBIOMF-SI, Nifty AIF Cat III Index, Long Only Equity Index and Nifty TR indices.

Over the last 1-year rolling period, between Mar 31, 2021, and Mar 31, 2022, DBIOMF-SI returned 21.94% in INR terms while the Nifty AIF Cat III Asset weighted index and Long Only Equity Asset Weighted Index returned 21.31% and 24.66% respectively.

# Annexures

## Definitions and Calculation Methodologies

NSE Indices strives to be in alignment with the best practices in the industry and maintain consistency and transparency in the methodology and definitions used. Below are the definitions of metrics used in this report.

Individual scheme quarterly returns are calculated using the aggregate share class NAVs. For schemes that have multiple share classes and have not submitted aggregated NAV series, an aggregate NAV series is derived using weighted average quarterly returns of the individual share classes, weights being the opening share class AUMs.

### Asset-weighted Index

An asset-weighted index is created at the category level based on quarterly returns of constituent schemes using relevant AUMs as weights.

### Equal-weighted Index

An equal-weighted index is created at the category level based on the quarterly returns of constituent schemes by assigning equal weightage to each scheme.

## Sub-Category Definitions

For classification of schemes into various sub-categories, actual asset allocation has been considered. For schemes that are active as on Mar 31, 2022, portfolio composition as on Mar 31, 2022, has been considered. For schemes that have matured, their last available portfolio compositions have been considered.

**Multi Asset:** Following schemes have been included under this sub-category –

- Schemes that have exposure to commodity or currency derivatives,
- Schemes that have more than 10% exposure to equity and at least some exposure to debt,
- Schemes that have more than 10% exposure to debt and at least some exposure to equity,

**Long Short – Equity Fund:** Schemes not classified as Multi Asset as per above rule and having any short position in equity or index derivatives.

**Long only – Equity Fund:** Schemes having more than

- 95% exposure to equity, cash and cash equivalents and mutual fund units, And,
- No short position in equity or index derivatives.

For following schemes, categorization has been done based on **self-classification** and investment objectives/strategies submitted:

- Schemes that did not submit sub categorization data
- Schemes that did not fit any of the above defined criteria
- Schemes that have matured and had > 90% exposure to Cash and Cash Equivalents as on their last submitted portfolio composition dates

## Eligibility Criteria

All AIFs registered with SEBI under the SEBI (Alternative Investment Funds) Regulations, 2012, are considered for the calculation of benchmarks, provided they fulfil the following criteria:

1. Completion of one year from the first close of the scheme as on the date for which the benchmarks are calculated. For e.g., the AIF benchmark calculated for the period ending Mar 31, 2022, will have schemes that had their first close on or before Mar 31, 2021
2. Valid data is provided to NSE Indices Ltd. in the specified format and by the stipulated deadline

The following are **excluded** from calculation of benchmarks:

1. Any scheme that has not completed one year since its first close as on the date for which the benchmarks are calculated, i.e., Mar 31, 2022
2. Fund of funds
3. Angel Funds registered under sub-category VCF under Category I-AIF
4. Any scheme that has not provided complete or valid data or that has not provided data in the required format
5. Schemes having vintage of 2012 or earlier

14 schemes were excluded from the calculation of Category III benchmark metrics as on Mar 31, 2022, due to the following reasons:

- Submission of incomplete/ inconsistent data,
- Manual exclusions when data was provided/ revised after stipulated deadline or cases of extreme IRRs for which confirmations were not received from respective AIFs within stipulated time.
