Trent's expansion aggression supported by strong balance-sheet with Net Debt-free status and strong brand-presence across verticals aided with TATA-group's strong focus on consumer business are factors that would support its premium valuations.

Westside precovid was growing at 18.5% CAGR with average store additions of 15 per annum, however going forward we are confident that this average store openings will be maintained at 25+ (FY19 too had net additions of 25 stores) and add to this is the aggressive growth in Zudio with an estimated 40+ stores per annum.

The management has got its model right in-terms of standalone business which has Westside, Zudio and newer additions of standalone stores of Utsa.

We have rolled over our estimates to FY24 and based on our SOTP valuation we arrive at a target price of Rs 1208. We believe that the down-side in the stock is limited as the company has strong suitable business model with very high growth potential. Market volatility should be used to "Buy the stock on Dips" with long-term perspective.
